**AN ACT**

To assist in the conservation of Asian elephants by supporting and providing financial resources for the conservation programs of nations within the range of Asian elephants and projects of persons with demonstrated expertise in the conservation of Asian elephants.

1       *Be it enacted by the Senate and House of Representa-*  
2       *tives of the United States of America in Congress assembled,*

3       **SECTION 1. SHORT TITLE.**

4       This Act may be cited as the “Asian Elephant Con-  
5       servation Act of 1997”.

6       **SEC. 2. FINDINGS.**

7       The Congress finds the following:

1           (1) Asian elephant populations in nations with-  
2           in the range of Asian elephants have continued to  
3           decline to the point that the long-term survival of  
4           the species in the wild is in serious jeopardy.

5           (2) The Asian elephant is listed as an endan-  
6           gered species under section 4 of the Endangered  
7           Species Act of 1973 and under appendix I of the  
8           Convention on International Trade of Endangered  
9           Species of Wild Fauna and Flora.

10          (3) Because the challenges facing the conserva-  
11          tion of Asian elephants are so great, resources to  
12          date have not been sufficient to cope with the con-  
13          tinued loss of habitat and the consequent diminution  
14          of Asian elephant populations.

15          (4) The Asian elephant is a flagship species for  
16          the conservation of tropical forest habitats in which  
17          it is found and provides the consequent benefit from  
18          such conservation to numerous other species of wild-  
19          life including many other endangered species.

20          (5) Among the threats to the Asian elephant in  
21          addition to habitat loss are population fragmenta-  
22          tion, human-elephant conflict, poaching for ivory,  
23          meat, hide, bones and teeth, and capture for domes-  
24          tication.

1           (6) To reduce, remove, or otherwise effectively  
2       address these threats to the long-term viability of  
3       populations of Asian elephants in the wild will re-  
4       quire the joint commitment and effort of nations  
5       within the range of Asian elephants, the United  
6       States and other countries, and the private sector.

7   **SEC. 3. PURPOSES.**

8       The purposes of this Act are the following:

9           (1) To perpetuate healthy populations of Asian  
10      elephants.

11          (2) To assist in the conservation and protection  
12      of Asian elephants by supporting the conservation  
13      programs of Asian elephant range states and the  
14      CITES Secretariat.

15          (3) To provide financial resources for those pro-  
16      grams.

2 does not become extinct, including all activities asso-  
3 ciated with scientific resource management, such as  
4 conservation, protection, restoration, acquisition, and
